

Henrietta Independent School District

“Commitment to Excellence”

Ashley Lamb, Principal

Class/Teacher Assignments

As you register your child for the 2023-24 school year, please read and abide by our campus policy. This passage explains our process for creating classes as well as procedures that must be followed, if parents/guardians have specific concerns that need to be expressed to administration. **The deadline for conferences about class/teacher assignments is May 19, 2023.**

“Our goal is to provide a learning environment in which students with different abilities and developmental levels are combined in a classroom that best meets each one’s individual needs. To reach that goal, at the end of each school year, we ask for input from teachers regarding their students’ academic, social, and behavioral needs. For that purpose, we will only consider parent concerns that are made with specific educational needs in mind. If you feel that you need to express concerns regarding your child’s placement, you must schedule a face-to-face conference with the principal. **Specific teacher names will not be accepted, as our purpose is not to specify a teacher, but to gather information regarding the child’s needs.**”
